EDUCATION

Bachelor of Engineering Program in Computer Engineering and Digital Technology
Chulalongkorn University - Bangkok, Thailand
Current GPAX: 3.97 (4 semesters)
Key Coursework: Software-Defined Systems, Practical Software Testing, Computer Network, Computer Security,

TECHNICAL SKILLS

- *Frontend*: TypeScript, React, Next.js, Redux, TailwindCSS, Shadcn UI
- *Backend*: Go (Testify), Node.js (Express, Nest.js), Java (Spring Boot)
- *Databases & Caching*: PostgreSQL, MySQL, Redis, MongoDB
- *Cloud & Infrastructure*: Docker, Kubernetes, AWS, Terraform
- *CI/CD & Testing*: GitHub Actions, GitLab CI/CD, Playwright, Performance Testing
- *Systems & Security*: Linux, Bash scripting, Networking fundamental, SSH, Vulnerability Scanning & Analysis

PROFESSIONAL EXPERIENCE

Technical Lead | Chula ESC | August 2026 – Present

- Established engineering best practices, including code reviews, comprehensive testing workflows, and automated CI/CD pipelines.
- Mentored developers across the full stack to ensure high-quality code delivery.

Fullstack Freelancer | MEE PALANG MAI CO., LTD. | June 2026 – Present

- Developed 'Curious', a live audience engagement platform for Chulalongkorn University supporting real-time quizzes, polls, and Q&A.
- Built full-stack features utilizing Next.js, Go, MongoDB, and AWS to ensure real-time scalability for concurrent users.

Fullstack Engineer Intern | OXYGEN CO., LTD. / OMNI DEAL CO., LTD. | May 2026 – July 2026

- Maintained and extended distributed features across a polyglot microservice ecosystem using Go and Python.
- Diagnosed and debugged asynchronous data flows via NATS, troubleshooting event-driven communication issues to ensure reliable message delivery between decoupled services.

Backend Developer Intern | APPPI COMPANY LIMITED | May 2025 – June 2025

- Developed scalable RESTful APIs in Go, using Hexagonal Architecture principles to ensure highly maintainable and decoupled codebases.
- Designed and integrated secure third-party authentication flows utilizing LINE Login OAuth, streamlining the user onboarding experience.
- Built robust API middleware for input validation and data sanitization, safeguarding system endpoints against common vulnerabilities.
- Established comprehensive unit testing suites using testing and Testify to drive code reliability and maintain high test coverage.

PROJECTS

Project Tracker | Tech lead

- Developed a room availability and reservation platform for the Chulalongkorn University Engineering Student Committee, enabling engineering students to discover and reserve available faculty rooms for temporary use.
- Implemented real-time room availability and scheduling to prevent booking conflicts and streamline shared-space management.

DevSecOps Security Scanner | <https://github.com/MadManJJ/appsec-scan-dashboard>

- Developed a Bash-based application security pipeline that scans local repositories for exposed secrets and vulnerabilities using Gitleaks and Trivy.
- Automated Git history, filesystem, Dockerfile, and container image scanning with generated HTML security reports served through a self-hosted Nginx dashboard.
- Used the tool as a local pre-deployment security check to identify leaked credentials and high/critical CVEs before pushing or deploying changes.

Concurrent Port Scanner | <https://github.com/MadManJJ/port-scanner>

- Developed a highly concurrent TCP port scanner and banner grabber using Go.
- Implemented worker pools and goroutines to efficiently manage thousands of simultaneous network connections and sequence asynchronous results.

PokeBattleP2P | <https://github.com/MadManJJ/PokeBattleP2P>.

- Engineered a peer-to-peer multiplayer game utilizing Java sockets to facilitate low-latency, real-time gameplay and data synchronization between players.

Vishnu 23rd and Intania First Date 2025 | <https://github.com/vishnu-23rd/vishnu-23-website>.

- Designed and implemented the database architecture and API utilizing Firebase and Next.js for a real-time, interactive Bingo application.
- Developed a responsive web platform to facilitate engagement and networking for incoming first-year university students.
